

Kiwanis One Day of Service at the Kiwanis Family House

After most of the "MARCH" was done, the Kiwanis Club of the Kiwanis Family House joined together with their sponsored Key Club from Kennedy High School and performed a service project for the House. This Kiwanis One Day Project consisted of spreading bark over all the area behind the trailer pads out back of the House. It was a windy job and a lot of bark got carried home in everybody's clothes. The wind did help spread the bark around when it got to its destination.

It was planned that other Kiwanis Clubs would perform One Day Service Projects to the House in conjunction with their "MARCHING" for the KFH. There are piles and piles of bark left to spread. Now that the Key Clubbers and Circle K'ers are back from Convention and particularly if your Kiwanis Club needs a Kiwanis One Day of Service Project, a day of service to the KFH would be ideal (contact Gary Christensen for more details).
